

United Nations' Sustainable Development Goals (SDG)

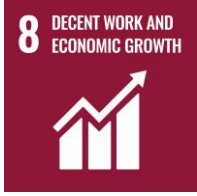

The United Nations' Sustainable Development Goals (SDGs) are 17 goals that aim to end poverty, protect the planet and ensure prosperity for all by 2030. The goals cover areas such as sustainable communities, health, education, diversity, poverty, environmental protection and climate change.

The goals cover several topics that we do not have a direct impact on through our business model and core activities, we nonetheless support the goals' objectives and seek to maximise our contribution to their objectives where material.

The following table highlights the most relevant Goals to our business, along with examples of the positive contribution we make through our activities.

For more information please consult our [2019 Economic, Environmental and Social Report](#) on page 55, under *Further information*.

Sustainable Development Goals (SDGs)	How we contribute
	<p>Promote more sustainable lifestyles among visitors and contribute to higher levels of employee resilience and productivity through improved health and wellbeing in our workforce.</p>
	<p>Promote environmental and social focused events with local communities, in particular schools, to provide educational opportunities, including site visits.</p> <p>Continually support the professional development of our employees through a well-established education and training programme providing an array of different development opportunities.</p>
	<p>Continually seek to promote gender equality and diversity within the company.</p>

	<p>Increase the water efficiency of our assets, using innovation and technology to rethink how water is used and managed. Minimise water pollution through our Safety, Health and Environment Development Standards (SHEDS) and monitoring of waste water discharges at our operational assets.</p>
	<p>Increase the energy efficiency of our assets and implement measures to increase our energy self-sufficiency to reduce our reliance on fossil fuels.</p>
	<p>Support local economic development through job creation and skills development opportunities.</p> <p>Promote innovation and productivity in our company through improved work practices and operational efficiencies and employee engagement and training.</p>
	<p>Use innovation to reduce water and energy use across our owned portfolio and third-party assets through our Bright® and Dive® programmes.</p> <p>Encourage innovation across the whole supply chain to reduce materials consumption and improve water and energy resilience.</p>
	<p>Design eco-efficient, attractive real estate assets that reduce resource consumption, serve the needs of the local population and enhance public space, local amenities and infrastructure in line with planning requirements of local authorities and our own SHEDS.</p>
	<p>Improve the eco-efficiency of our assets focusing on energy, water and waste production.</p> <p>Prohibit the use of materials which are known to have negative impacts on the environment and on the health and wellbeing of building occupants.</p>
	<p>Reduce GHG emissions from our portfolio, integrate climate change risk adaptation procedures into our current risk management processes, design standards for new developments and operational procedures for existing assets.</p>

	<p>Collaborate with industry partners, industry bodies and associations to promote and share best practice and innovation in tackling the sustainability challenges facing the industry.</p>
